Список иллюстраций

Список таблиц

1 Цель работы

Изменение пунктов skills, experience, accomplishments. Создание постов про предыдущую неделю и про язык гиперразметки markdown.

2 Задание

Написать skills, experience, accomplishments. Написать посты про предыдущую неделю и про язык гиперразметки markdown.

3 Выполнение лабораторной работы

1. Изменил информацию в skills.

```
text:
- block: features
content:
  title: Skills
  items:
    - name: S
      description: 80%
      icon: r-project
      icon_pack: fab
    - name: Statistics
      description: 60%
      icon: chart-line
      icon_pack: fas
    - name: Photography
      description: 50%
      icon: camera-retro
      icon_pack: fas
```

2. Изменил информацию в exphirience.

```
# Add/remove as many `experience` items below as you like.
# Required fields are `title`, `company`, and `date_start`.
# Leave `date_end` empty if it's your current employer.
# Begin multi-line descriptions with YAML's `|2-` multi-line prefix.
items:
  - title: Advego
    company: Advego
    company_url: 'https://advego.com/'
    company_logo: advego
    location: California
    date_start: '2023-04-05'
    date_end: ''
    description: |2-
      Responsibilities include:

      * Frilance
```

3. Изменил информацию в accomplishments.

```
# Leave other parameters empty if not required.
# Begin multi-line descriptions with YAML's `|2-` multi-line prefix.
items:
  - certificate_url: https://icpc.global/
    date_end: ''
    date_start: '2022-10-21'
    description: ''
    organization: ICPC
    organization_url: https://icpc.global/
    title: International Collegiate Programming Contest
    url: ''

  - certificate_url: https://stepik.org/course/63054/syllabus?auth=logi
    date_end: '2023-04-08'
    date_start: '2022-10-01'
    description: ''
    organization: Stepic
    organization_url: https://stepic.org
    title: 'SQL'
    url: ''
```

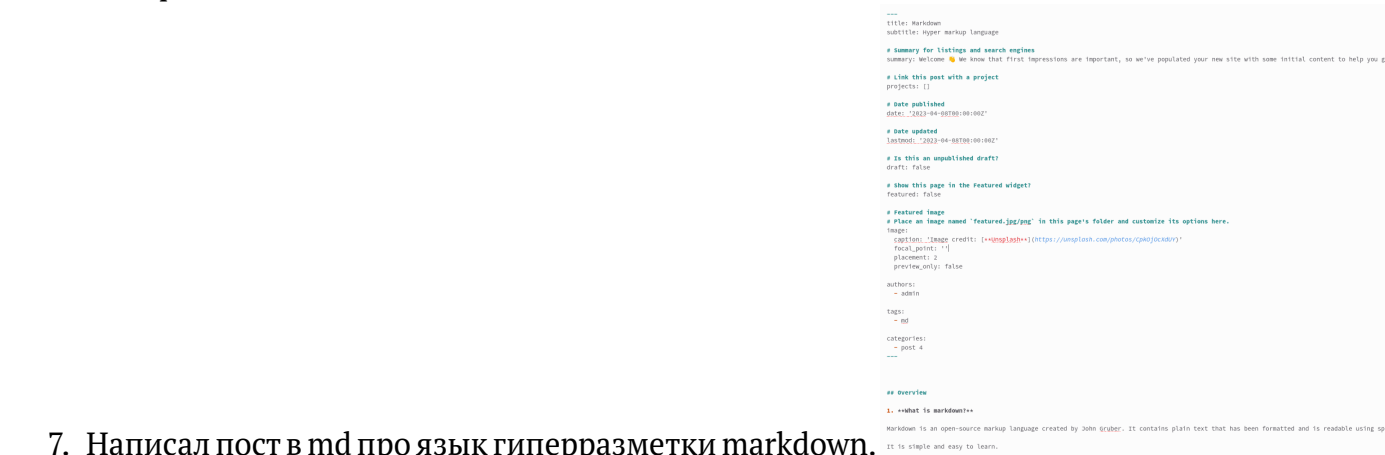

4. Отображение этих пунктов на странице сайта.

5. Написал пост в md про прошлую неделю

6. Отображение постов на сайте.

7. Написал пост в md про язык гиперразметки markdown.

4.3. Converting raw strings

Writing text content with special syntax
Parser to convert this content into different output it helps developers and content writers to learn markdown.

2. **What is Markdown File Extension?**

There is no office extension defined for these types of files.

We can create a plain text file with the .md extension to write content for websites.

We can create a file with different extensions for markdown files

```
.markdown  
.md  
.mdx  
.mkdown  
.text  
.mdwn
```

Some of the popular vendors use HTML extensions.

GitHub uses markdown and mdwn extensions.

GitHub uses the standard file extension as .md.

3. **Advantages**

It is easy to read and write plain text that converts to a Rich HTML document.
Easy to learn and write content effectively for technical and non-technical people.
Easy to test the content locally and easy to add/update and delete content
Support for popular visual editors
Extending syntax to provide custom elements like audio, video, etc.
easily share this content between different devices.
Markdown is standard for writing content on GitHub, GitLab, and Reddit.

4. **Features**

The list of features is provided as the basic syntax and extended syntax.
version control systems

![[The list of features](features.png)]
*Figure 4. features

5. **Text/markdown**

and request contains the below value for markdown data sending over the Internet

Content-type : text/markdown

The default charset of text content type is ISO-8859-1 so UTF-8 is common charset for markdown.

4 Выводы

Изменил на сайте информацию про свои навыки и достижения и залил 2 поста.
